TEXAS WATERSHED STEWARD WORKSHOP

(KILLEEN, TEXAS): Killeen residents are invited to a Texas Watershed Steward workshop on Lampasas River water quality and management July 12 from 1 to 5 p.m. at Texas A&M University - Central Texas in Founders Hall. Anyone interested in learning about or improving water quality in the Lampasas River and surrounding areas is encouraged to attend.

Killeen is part of the Lampasas River Watershed, and this workshop will focus on water quality issues related to the Lampasas River. It is designed to help watershed residents improve and protect their water resources by becoming more educated and involved in local watershed protection and management activities.

The workshop is presented by Texas A&M AgriLife Extension Service and the Texas State Soil and Water Conservation Board in coordination with Texas A&M AgriLife Research and the Lampasas River Watershed Partnership. Participants will receive a copy of the Texas Watershed Steward Handbook, a certificate of completion and continuing education credits where applicable.

The workshop is free, but participants must register in advance online at <http://tw.s.tamu.edu> or by calling Michael Kuitu at 979-862-4457.

More information about this workshop and the Lampasas River Watershed, contact:
